

## Vegetable Companion Planting Guide

Crop	Compatible With	Incompatible With
<b>Asparagus</b>	Basil, Dill, Marigolds, Parsley, Tomatoes	Garlic, Onions, Potatoes
<b>Basil</b>	Asparagus, Chamomile, Oregano, Peppers, Tomatoes  (Some say Tomatoes taste better when planted near Basil)	Rosemary, Sage  (Basil will kill Rosemary if planted near each other)
<b>Beans</b>	Carrots, Corn, Cucumbers, Dill, Eggplant, Lettuce, Potatoes (Bush Beans only) , Radishes, Rosemary, Spinach, Strawberries	Beets, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Chili Peppers, Kales, Kohlrabi, Marigolds, Onions, Sunflowers, Tomatoes
<b>Beets</b>	Broccoli, Cabbage, Cauliflower, Garlic, Kohlrabi, Leeks, Lettuce, Mint, Onions, Shallots	Pole or Runner Beans  (Beets & Pole/Runner Beans stunt each other's growth if planted near each other)
<b>Broccoli</b>	Celery, Dill, Garlic, Geraniums, Leeks, Nasturtium, Onions, Potatoes, Rosemary, Shallots	Beans, Peppers, Tomatoes
<b>Brussels Sprouts</b>	Dill, Garlic, Geraniums, Leeks, Nasturtium, Onions, Rosemary, Shallots	Beans, Peppers, Tomatoes
<b>Cabbage</b>	Aromatic Herbs, Beets, Celery, Chamomile, Dill, Garlic, Geraniums, Nasturtiums, Onions, Potatoes, Rosemary, Sage, Shallots, Spinach, Swiss Chard, Thyme  (Thyme- Deters Cabbage Worms)	Beans, Dill, Peppers, Strawberries, Tomatoes
<b>Carrots</b>	Beans, Celery, Garlic, Leeks, Lettuce, Onions, Peas, Rosemary, Sage, Shallots	Dill, Parsnips, Radishes, Tomatoes  (Tomatoes seem to grow better when planted w/ carrots, but the carrots growth may get stunted.)

<b>Cauliflower</b>	Dill, Garlic, Geraniums, Leeks, Nasturtium, Onions, Rosemary, Shallots	Beans, Peppers, Tomatoes
<b>Celery</b>	Cabbage, Nasturtium, Onions, Tomatoes	Corn
<b>Chamomile</b> (Is said to increase other herbs oil production if planted near them)	Basil, Cabbage, Cucumbers, Onions	
<b>Cilantro</b> (Helps keep Aphids, Potato Beetles, and Spider Mites away from neighboring plants)	Beans, Peas, Spinach	
<b>Corn</b>	Beans, Cucumbers, Parsley, Peas, Potatoes, Pumpkins, Sunflowers, Squash	Celery, Tomatoes
<b>Cucumbers</b>	Beans, Beets, Carrots, Corn, Marigolds, Nasturtiums, Peas, Radishes, Sunflowers	Aromatic Herbs, Potatoes, Sage, Tomatoes
<b>Eggplant</b>	Basil, Beans, Carrots, Garlic, Leeks, Marigolds, Mints, Onions, Oregano, Peas, Peppers, Shallots	Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Corn, Dill, Fennel, Potatoes
<b>Garlic</b> (Helps keep Aphids, Cabbage Loopers, and rabbits away from neighboring plants)	Celery, Cucumbers, Lettuce, Peas, Tomatoes	
<b>Geraniums</b> (Helps keep Japanese Beetles and Leafhoppers away from neighboring plants)	Grapes, Peppers, Tomatoes	
<b>Lettuce</b>	Beans, Carrots, Cucumbers, Kohlrabi, Radishes, Sage, Strawberries  (Sage deters slugs away from lettuce)	Cabbage, Celery, Parsley
<b>Marigolds</b> (Helps keep Nematodes & other pests away from neighboring plants)	Most veggies, most of all: Broccoli, Cabbage, Cucumbers, Kale, Peppers, Squash, Tomatoes	Beans
<b>Nasturtiums (edible)</b> (Trap Crop for Aphids. Helps keep Cabbage Loopers, Cucumber Beetles, Squash Bugs, & White flies away from neighboring plants)	Most veggies, most of all: Beans, Broccoli, Cabbage, Cucumbers, Pumpkins, Radishes, Squash, Tomatoes	
<b>Onions</b> (Helps keep Aphids, Cabbage Worms, and Slugs away from neighboring plants)	Beets, Broccoli, Brussels Sprouts, Cabbage, Carrots, Cauliflower, Kales, Lettuce, Peppers, Potatoes, Tomatoes	Asparagus, Beans, Parsley, Peas
<b>Oregano</b> (Helps keep Aphids away from neighboring plants)	Basil, Peppers, Tomatoes	
<b>Parsley</b>	Asparagus, Tomatoes	Onions
<b>Peas</b>	Beans, Carrots, Corn, Cucumbers, Radishes, Tomatoes, Turnips	Onions, Potatoes

<b>Peppers</b>	Basil, Geraniums, Onions, Tomatoes	Beans, Brussels Sprouts, Broccoli, Cabbage, Cauliflower, Kale
<b>Petunias</b> (Trap Crop for Aphids, Asparagus Beetles, Japanese Beetles, & Leafhoppers)	Asparagus, Cucumbers, Pumpkins, Squash	
<b>Potatoes</b>	Basil, Bush Beans, Broccoli, Cabbage, Carrots, Corn, Garlic, Horseradish, Leeks, Marigolds, Onions, Oregano, Shallots  (Planting horseradish near your potatoes will increase the potatoes resistance to diseases.)	Cucumbers, Peas, Pumpkins, Spinach, Squash, Sunflowers, Tomatoes, Turnips
<b>Pumpkins</b>	Beans, Corn, Marigolds, Radishes	Potatoes
<b>Radishes</b>	Cucumbers, Lettuce, Nasturtiums, Peas	Hyssop
<b>Rosemary</b> (Helps keep Bean Beetles & Cabbage Moths away from neighboring plants)	Beans, Broccoli, Cabbage, Carrots, Sage	Basil  (Will be killed if planted near Basil)
<b>Sage</b> (Helps keep Cabbage Loopers & Carrot flies away from neighboring plants)	Beans, Cabbage, Carrots, Rosemary	
<b>Spinach</b>	Beans, Peas, Strawberries, Cabbage	Potatoes
<b>Squash</b>	Corn, Marigolds, Nasturtiums	Potatoes
<b>Tomatoes</b>	Asparagus, Basil, Carrots, Celery, Cucumbers, Garlic, Geraniums, Leeks, Marigolds, Nasturtiums, Onions, Oregano, Parsley, Peppers, Shallots  (Tomatoes seem to grow better when planted w/ carrots, but the carrots growth may get stunted.)  (Some say Tomatoes taste better when planted near Basil)	Beans, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Corn, Dill, Fennel, Kohlrabi, Peas, Potatoes, Rosemary
<b>Winter Squash</b>	Beans, Corn	Potatoes
